# INTRODUCTION

As part of Wonderful Copenhagen's sustainability strategy, Tourism for Good, we, as an organisation, are dedicated to achieving our targets for the key performance indicators laid out in the strategy.

To be able to achieve these targets, we have to continuously measure our progress towards them and this report presents the current status for the progress towards each target, as of October 2020.

Keep in mind, that the targets laid out in the Tourism for Good strategy are set for ultimo 2021.

***TOURISM***

## KPI: CONTINUED GROWTH IN TOURISM IS SUPPORTED BY AT LEAST 80 PER CENT OF LOCAL RESIDENTS

Based on a resident sentiment analysis conducted amongst Copenhagen citizens in 2020, 72% of local residents currently support continued growth in tourism in the city.

For more information, please visit the [10xCopenhagen website](#).

## KPI: CREATING REGULAR OPPORTUNITIES FOR LOCALS TO BE INVOLVED IN TOURISM DEVELOPMENT

We are very focused on taking locals' opinions and suggestions into account, when working to improve the tourism industry in Copenhagen and, as such, have taken several steps towards understanding how the locals feel about tourism in the city:

- In 2018 and 2020, we conducted resident sentiment analyses amongst locals in Copenhagen, the results of which can be found at the [10xCopenhagen website](#).
- In 2019, we conducted in-person interviews with locals, tourists and business owners in the area of Ørestad in relation to a development project conducted in the area, which was focused on making Ørestad a more attractive area for tourist, while ensuring that the development of the area also benefits the locals.
- In 2020, we conducted in-person interviews with locals and business owners in the area of Indre By to understand how the spread of COVID-19 has affected the locals' opinion on, and use of, the city, including what their experiences have been with the decrease in tourism as a result of the world's governments' efforts to manage the spread of the virus.

# KPI: DEVELOPING A METHOD TO MEASURE BROADER TOURISM IN TERMS OF GEOGRAPHY, INTERESTS AND TIME

We are currently in the middle of the development process for this method, which will allow us to measure tourism flow throughout the city and better understand what areas of the city are most used by tourists at different times of day.

# CONTRIBUTING TO THE UN'S SUSTAINABLE DEVELOPMENT GOALS

The KPIs in focus area 1 of our sustainability strategy aim to contribute to the following sustainable development goals:

**SDG 8.5:** The tourism industry created a total of 40,032 jobs in the city in 2018. Ensuring locals' support for continued growth, will allow for further job creation in the years to come.

**SDG 9.1, 11a, 11.3 & 11.7:** In 2018, tourism generated 36.5 billion DKK in revenue in the city. By ensuring locals' support for continued growth and taking into account locals opinions on the development of tourism in the city, this figure can be increased in the future and provide support for the further sustainable development of the city.

## KPI: 77 PER CENT OF VISITORS INTEND TO RECOMMEND THE DESTINATION

The latest study amongst international visitors in the city showed that 75% found it to be likely or very likely that they would revisit Copenhagen on a city break vacation in the future.

In the [competitive index analysis](#) conducted in 2018, 73% of respondents showed intent to recommend Copenhagen as a travel destination.

## **KPI: 100 PER CENT OF LARGE CONVENTION VENUES AND 90 PER CENT OF LARGE HOTELS HAVE THIRD-PARTY SUSTAINABILITY CERTIFICATION**

Currently, 91% of large convention venues in the city and 68% of the hotel rooms in the city have a third-party sustainability certification.

In 2019 and 2020 a lot of new hotel room capacity has been constructed in Copenhagen, or is currently being constructed, which is not yet certified. However, these hotel rooms are expected to become certified as the construction completes and the rooms become available for use by locals and tourists.

# **KPI: TO DEVELOP A DETAILED CONTENT STRATEGY, THAT WILL NUDGE TRAVELLERS TO MORE DIVERSE EXPERIENCES IN TERM OF GEOGRAPHY, SEASON, TIME AND INTERESTS**

The content strategy has been developed and implemented. The new strategy has an increased focus on broadening the tourists' geographic use of the city, by focusing on experiences outside of the Inner City district as well as promoting activities and experiences in the city that tourists can participate in throughout the year.

For examples on new content, please see links below:

**SDG 6.4, 7.2, 7.3, 11.6, 12.3, 12.5, 12.6 & 14.1:** By supporting and encouraging the tourism sector to develop experiences and products that positively impacts sustainable transition, we will then contribute to these goals.

**SDG 11.3:** Creating content that nudges travellers to visit more diverse geographies will help spread the impact of tourism throughout the city and region.

We work closely with a wide range of stakeholders within the city to help improve the tourism industry's overall sustainability. Sharing knowledge about sustainable initiatives and methodologies, is a natural part of our work and communication with stakeholders in general.

We are currently in the proces of developing a manual for sustainable events.

We have also developed a new tool called the [Copenhagen Congress Compass](#), which is a dialogue tool that helps associations and organisers starting a conversation about how to best implement the Sustainable Development Goals in their congresses.

# SUMMARY

WONDERFUL<sup>®</sup>  
COPENHAGEN

**»Wonderful Copenhagen's ambition for 2030 is that tourism in Greater Copenhagen positively impacts local and global sustainable development.«**

## **WONDERFUL COPENHAGEN WILL WORK TOWARDS THE ABOVE AMBITION THROUGH 4 FOCUS AREAS**

### **BROADENING TOURISM**

The goal is not fewer visitors, but that they make broader use of the destination. If the destination is developed to be used in a broader way, travellers will get a richer experience which in turn is likely to result in higher visitor satisfaction. It will also prevent the feeling of tourism pressure in the city, distribute tourism revenue more broadly and make more space for people in the city, whether locals or temporary locals.

### **TOURISM CHOICES MATTER**

Like any other consumption and behaviour, tourism consumption and behaviour have negative sustainability impacts. If tourism consumption and behaviour are managed responsibly, we will lower the negative environmental, social and economic impacts of tourism. The choices available to visitors will be largely responsible ones. The visitor's perception of the quality of the destination will improve and thereby the likelihood that the visitor will recommend the destination to others.

### **PARTNERSHIPS FOR GOOD**

Without information, it is impossible to know how to make the biggest sustainable impact. Without measurements, it is impossible to know whether it is worth the effort. Without bringing that knowledge into partnerships, we will find it impossible to create sustainable change that is bigger than ourselves. If Wonderful Copenhagen collects, activates and distributes knowledge about sustainability in partnerships and events, it will contribute to sustainable destination development.

### **LEADING BY EXAMPLE**

Wonderful Copenhagen, as an organisation, consumes resources on account of its daily operation and procurement. As an employer, Wonderful Copenhagen is also responsible for contributing to a socially conscious labour market. Thus, Wonderful Copenhagen must take the greatest possible sustainability considerations in its own operations to become a leading example.
